

UK-SINGAPORE WORKSHOP
**Physical Organic Chemistry Symposium:
Complex Reaction Mechanisms**
16-17 January 2006
Exploration Theatre, Level 4, Matrix, Biopolis

For registration, please visit: www.ices.a-star.edu.sg

The **Royal Society of Chemistry (RSC)**, the **Engineering and Physical Sciences Research Council (EPSRC)** and the **Institute of Chemical and Engineering Sciences (ICES)** will be hosting the “**UK-Singapore Physical Organic Chemistry Symposium**” to foster the exchange of knowledge and to establish links between researchers from the two countries. This symposium aims to recognise the centrality of physical organic chemistry and its impact on the chemical sciences, within the broadly defined area of complex chemical systems.

A one-day symposium will be held on Monday 16th January involving senior academics and researchers from the UK and Singapore; this will be followed by a one-day closed workshop on the 17th January involving younger researchers from both parties.

Speakers:

- **Professor Chris Hunter**, Department of Chemistry, Sheffield University
- **Professor Donna Blackmond**, Department of Chemistry, Department of Chemical Engineering and Chemical Technology, Imperial College London
- **Professor Guy Lloyd-Jones**, Department of Chemistry, Bristol University
- **Dr Nick Williams**, Department of Chemistry, Sheffield University
- **Professor Andrew de Mello**, Department of Chemistry, Imperial College London
- **Professor Andy Hor Tzi Sum**, Department of Chemistry, National University of Singapore
- **Associate Professor Lai Yee Hing**, Department of Chemistry, National University of Singapore
- **Associate Professor Richard Wong**, Department of Chemistry, National University of Singapore
- **Associate Professor Marc Garland**, Institute of Chemical and Engineering Sciences, Singapore
- **Dr Li Jun**, Institute of Materials Research and Engineering, Singapore
