# Call for Papers

“*Chemistry – An Asian Journal* offers a highly visible arena for top papers from researchers around the world and especially Asia. With their unique cultural backgrounds, Asian researchers will significantly expand the horizons of chemical science. Complementing the existing top European and American journals, *Chemistry – An Asian Journal* will spur a “quantum leap” in Asian chemistry.  
Ryoji Noyori”

## Chemistry – An Asian Journal

- Is a sister journal of *Angewandte Chemie* and *Chemistry – A European Journal*.
- Published monthly from mid-2006.
- Publishes Full Papers and Focus Reviews.

Focus Reviews are critical but balanced surveys of recent developments in a focused field. They are written by specialists in the field but for chemists in general.

Full Papers report the results of substantial experimental or theoretical studies. The topics dealt with are of current general interest or of great significance to a more specialized readership.

## Editorial Team

**Editor:** Peter Göllitz

**Deputy Editor:** José Oliveira

**Assistant Editor:** Clara Tan

**Editorial Assistant:** Renata Csihony Doczi

## Readership

Chemists of all disciplines

## Scope

*Chemistry – An Asian Journal* is guaranteed to become an international top journal for chemistry in its broadest sense. The journal covers all aspects of chemistry:

- analytical chemistry
- biochemistry
- materials science
- organic and inorganic chemistry
- physical chemistry
- interdisciplinary topics.

## Your advantages as a contributor

- **High visibility right from the beginning:** *Chemistry – An Asian Journal* is published in print and online. In its first year it will be delivered to all institutional subscribers to *Angewandte Chemie* and *Angewandte Chemie International Edition*.
- Easy and convenient online submission system
- Prompt review procedure and **rapid publication**
- **EarlyView:** Readers can access your contribution online and cite it before the print edition of *Chemistry – An Asian Journal* is published.
- **CrossRef**, the multipublisher linking initiative, enables the readers of *Chemistry – An Asian Journal* to move seamlessly from the references in your article to the cited publications.

To submit your next excellent manuscript go to the journal's homepage:
